

CME'24 – Contemporary Mathematics Education Conference

First Announcement

<http://cme.ur.edu.pl/>

This is the first announcement of the Contemporary Mathematics Education Conference CME'24, which will take place in Lublin, Poland on 24-27 June 2024. All researchers in mathematics education, teacher trainers and teachers are invited to attend and contribute.

1. Aim and focus

The conference is intended as a working meeting for those who are interested in teaching mathematics at all educational levels. This means that the conference is addressed to:

- teacher trainers involved in:
 - pre-service teacher training
 - in-service teacher training
- researchers interested in all aspects of teaching and learning mathematics (establishment of mathematical concepts and procedures, development of mathematical thinking, teacher-student interactions, teaching processes, textbook analysis, etc.)
- mathematicians, who want to enhance their teaching at school
- reflective practitioners (teachers).

2. Conference theme: *Educational resources in the mathematics classroom*

The conference will focus on resources related to mathematics education. Resources could be digital and non-digital ones, but also social and cognitive. The studies that will be presented in CME'24 will contribute to the discussion on the design, implementation and assessment of resources in the mathematics classroom.

3. Activities during the conference

- Plenary lectures: Three one-hour long lectures. The program includes plenary sessions during which invited speakers will focus on aspects of the conference theme. The plenaries provide a shared input to the conference and form a basis for discussions during the working seminars.
- Working seminars: The most important part of the conference. We plan to organize the work focused on three educational levels: kindergarten and primary school (3–9-year-olds), primary school (10–13-year-olds), secondary school and upper-secondary school (14–18-year-olds). Each participant is invited to be a member of one of the working seminars. Each group will be coordinated by a leader.
- Research Reports: Parallel sessions of 20 minutes of oral presentations, followed by a 10-minute discussion. Presentations are related to the theme of the conference.

- Workshops: They contain a more extended type of contribution which should focus on concrete activities and encourage an active participation through working on materials, problems, or questions. The workshops can last for about 1.5 hours.
- Poster exhibition: They refer to small-scale studies or studies which are incomplete.

4. Deadlines

March 1, 2024	Deadline for research reports and workshop proposals' submission
March 1, 2024	Deadline for payment of conference fee for those who have a submission
March 1, 2024	Deadline for application for a grant
April 1, 2024	Reply from the International Program Committee with acceptance of presentations or suggested modifications
April 1, 2024	Deadline for poster submission
April 15, 2024	Deadline for submission of the revised versions of research reports
May 5, 2024	Final decision regarding papers and posters sent to authors
June 1, 2024	Deadline for cancellation with refund
June 1, 2024	Deadline for online registration
June 1, 2024	Deadline for payment of conference fee for those who have no submission

5. Time and place

The conference is hosted by the Institute of Mathematics in the [Faculty of Mathematics, Physics and Computer Science](#) of the [University of Maria Curie-Skłodowska](#) and will take place on 24-27 June 2024. Further details on the participation, travel and accommodation will be provided to CME'24 registered participants at a later stage.

6. Language

The official conference language is English.

7. Conference fee

The conference fee is 350 Euros (reduced fee for students and PhD students: 220 Euros), which includes the conference proceedings and other materials, four lunches, coffee breaks and social activities for participants, such as an excursion and the conference dinner. The payment of the registration fee is a necessary condition for the evaluation of submitted papers. A limited amount of funding is available to participants who experience financial difficulties to attend the CME'24 conference.

8. Contact

For issues regarding the organisation of the conference you may contact Marta Pytlak (mpytlak@ur.edu.pl) or Eliza Jackowska-Boryc (eliza.jackowska-boryc@mail.umcs.pl).

For issues regarding academic matters, you may contact Bożena Maj-Tatsis (bmaj@ur.edu.pl).
